SystemC Evolution Day 2018

Workshop on the evolution of SystemC standards
Tuesday, October 23, 2018
Holiday Inn Munich City Centre, Germany

Summary

The third **SystemC Evolution Day** is a full-day, **technical workshop** on the evolution of SystemC standards to advance the SystemC eco-system. In several in-depth sessions, selected current and future standardization topics around SystemC will be discussed in order to accelerate their progress for Accellera/IEEE standard's inclusion.

SystemC Evolution Day is intended as a **lean, user-centric, hands-on forum** bringing together the experts from the SystemC user community and the Accellera Working Groups to advance the SystemC standards. This is the third event after a successful second edition in October 2017.

Date / Time: October 23, 2018 (day before DVCon Europe 2018) | 10:00 – 18:00
Location: Holiday Inn Munich City Centre, Hochstrasse 3, 81669 Munich, Germany | Hotel details
Submissions / Questions: Email systemc-evolution-day@lists.accellera.org
Organization Team: Philipp A. Hartmann, Intel; Oliver Bell, Intel; Martin Barnasconi, NXP; Joachim Geishauser, NXP; Volkan Esen, Infineon; Andrew Stevens, Infineon;

Call for Contributions

In the morning, a series of **lightning talks** are planned, covering concrete, but smaller standardization ideas as well as introducing new standardization needs around SystemC. For each of these short presentations, time for an interactive discussion will be included to gather feedback and support and for identifying the next steps towards standardization.

In the afternoon, four dedicated 90-minutes **in-depth sessions** are planned again, enabling detailed and interactive technical discussions on the most significant ongoing and future topics around SystemC standardization.

If you are interested in championing a topic for an afternoon session or presenting your favorite extension to the SystemC community as part of a lightning talk, please send a title and abstract with up-to 100-words (lightning talks) or 400 words (topic session) **by end of June** to the contact address above. You will receive notification of acceptance by September at the latest.

Important dates:

June 30, 2018	Proposal abstract submission deadline
August 30, 2018	Notification of acceptance
September 5, 2018	Finalization of program

Registration

Registration is required, but free of charge. Seats are limited, so register soon!

Special thanks to the SystemC Evolution Day event sponsors
